DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Blachly.

Blachly discloses in figures 1-4 an apparatus for placement within the mouth comprising an outer shield, 22 having an inlet port 44, an elongated shaft 10 having a first end terminating in a generally concave tongue portion 16 and a second end disposed within the outer shield inlet port (fig. 1), the shaft having an inner plate 12, disposed by the outer shield and the concave tongue receiving surface (fig. 1), the shaft includes a means 18 for receiving oral medication and dispensing the oral medication (the opening 18 is capable of receiving and dispensing a medication) and the inlet port is defined by a cylindrical wall (the wall 42), having a peripheral edge. The first end of the shaft is adapted for fluid communication (via opening 44).

Allowable Subject Matter

Claims 4-8 are allowed.
